Flip Three

This is a memory style card game with a twist. Players make equations from the three cards that they flip over. For 2 - 4 Players

Need: Pack of playing cards with the picture cards removed. Aces are valued at 1.

Getting Ready: The cards are all placed in rows face down.

How to Play:

Players take turns to flip over three cards and attempt to make an equation using the three cards. The equation can be an addition, subtraction, multiplication or division, e.g. $3+3=6$, $8-5=3$, $2\times 1=2$, $10\div 2=5$.

If the player can make an equation they keep the cards. If they can't make an equation the cards are flipped back over in the same place.

Continue playing until only 7 cards remain. The winner is the player who has the most cards.

Ten or Twenty

Addition Game for 2 - 4 Players

Need: Pack of playing cards with the picture cards removed. Aces are valued at 1.

Getting Ready: Each player is dealt 5 cards to hold in their hand.

The remaining cards are placed face down in a pile in the center.

The top card is turned over and placed beside the pile.

How to Play:

Players take it in turns to pick up the top card of the pile or the top card of the discard pile. If the player can make a set of 3 cards that total 10 or 20 in value, the set is put down facing up in front of the player. The player finishes the turn by discarding a card face up on the discard pile. If the player has made a set of 3 on their turn they also pick up three more cards from the pile to restore their hand to 5 cards.

The winner is the person who has made the most sets when all of the pile is gone.
